Note (-5)* As of Jan 2004, carrying forward a process that began in 2003, arsons are not reported until an Arson Investigator investigates the report and deems it an actual arson. The Fresno Fire Department has adopted a new program, National Fire Incident Reporting Systems (NFIRS), and not all records have been imported at this time.
Note (-4) * The population for the City of Fresno has been adjusted to reflect the figures published by the City of Fresno Development Department, California State Department of Finance.
Note (-3) * The number of Homicides submitted to the FBI include one more than actually occurred in 2003. The difference reflects a Year 2000 death that was reclassified in 2003 to a Homicide as a result of improved forensic findings. The November 2003 report reflects three homicides that were previously reported and subsequently deemed justifiable, resulting in a negative three count.
Note (-2) * Note, a preliminary report was released to PIO in February 2002. This report reflected that there were 421,568 CFS for Year 2001. Further inspection to assess the validity of the data revealed that this information was derived directly using a using a default Data911 internal report. Analysis by programming staff in Police-ISB revealed that the results in using this program provides information inclusive of not only unique Police Events; but, also Fire Calls and multiple Police event transactions. The result of this initial (pre-audit) condition provided an inaccurate representation of the CFS data. The correct data as of 3/22/2002 is reflected in the above table.
